It will be remembered that Gen.

Sheridan included Arkansas in his

list of States overrun by the White

League, and in which there was a

reign of terror. Certain ex-Federal

soldiers residing in Little Rock de-

nied the charge and others confirmed

it. Gov. Garland thereupon called

the attention of the State courts to the

matter, and urged a thorough in-

vestigation of the allegations against

the good name of the State. This

proved a very satisfactory way of deal-

ing with outrageous stories. The Grand

Jury of Little Rock have given the

subject careful attention, and we

now have their report, showing that

not one of the men who supported

Gen. Sheridan's statement was able

to give a single instance of intimidation

or political murder. As to White Le-

ague, the nearest approach made to

finding it was the discovery of a man

who belongs to the Knights of Pythias

a secret charitable order which has

a membership of several hundred thou-

sands in the North, and of only a

few thousands in the South. The

publication of this report is timely,

in view of President Grant's message

picturing the situation in Arkansas

in sanguinary colors.—N. Y. Tribune.

At the funeral of Paul Faucher, the

eminent French journalist and critic,

it was remarked that not more than

three hundred persons were present,

while at the interment of Greiner, the

actor, there were two thousand.

In the case of Faucher, it was painful

to see so many of his countrymen, and

distinguished men, and free thinkers,

remaining outside the church during the

celebration of the funeral service.

His brother-in-law, Victor Hugo,

whose people will, on account of his

extreme political views, persist in

classing as a materialist, was the most

prominent figure during the mass,

and the most remarkable in sprink-

ling the coffin, in cross fashion, with

holy water. The old poet walked all

the way bareheaded to the cemetery.

He ever does so on these occasions,

and never catches cold. It was any-

thing but a solemn spectacle to ob-

serve the orator of the ceremony

smoking his cigar and cracking jokes

while the bier was in the church. He

was evidently an official who re-

garded funerals as the bore of life.

It is proposed to call him John Ju-

nius Brown in honor of his eloquent

denunciation of the Beast.

MINERAL REMEDIES SUPERSTITION.—All

of those who refuse to be convinced

by the positive proof, admit the in-

feriority of Hostetter's Stomach

Bitters to the mineral remedies, which

it has to a very great extent superseded,

and which it is to be hoped for the sake

of the human stomach, may eventually be aban-

doned altogether. The Bitters are a most

potent corrective of disorders of the liver,

stomach and kidneys. Habitual constipa-

tion, dyspepsia, bowel complaint, and a

multitude of other ailments, which are

in every instance not only cured,

but cured by a persistent and sys-

tematic use of this "overseer" remedy.

It is a most powerful and reliable

remedy, and is the best remedy in which

to encounter disease, secure it by re-

course to the Bitters. feb 13-dawlv

# AN IMPORTED NATURAL GUANO.

A GENUINE ANIMAL DEPOSIT. A MONOPOLY OF THIS VALUABLE DEPOSIT HAS BEEN CREATED IN FAVOR of this Company by the Crown Officers. The name "GUANAHANI" is a Registered TRADE MARK at the United States Patent Office, and all persons are warned from making use of the same in connection with fertilizers of any kind.

THIS COMPANY GUARANTEES THAT Every Cargo will be ANALYZED Before it is Offered For Sale.

Examining the Analyses and Letters of Prof. F. B. WILSON, Baltimore; Prof. H. C. WYLLIE, Professor of Chemistry, University of Georgia; Prof. F. A. GENTH, Philadelphia, Professor of Applied Chemistry, University of Pennsylvania.

IMPORTED ONLY BY THE GUANAHANI GUANO COMPANY, PETERSBURG, VA.

In offering this FERTILIZER to the Agricultural Community a Second Season we do so with the utmost confidence, feeling satisfied that the high opinion we formed, and expressed last season based on the Chemical Constitution, has been most satisfactorily borne out by the fact, by which all Fertilizers must be judged, that of the Plantation. Last season, owing to the lateness at which we commenced importing, we were forced to put our Guano on the market at once, but now having continued our importations during the summer and fall, and having large and well ventilated Warehouses in the city of Petersburg and in New York, we are enabled to put our Guano on the market in a condition as to dryness and freedom from lumps, equal to any Manufactured Fertilizer.

We solicit a careful perusal of our Circular containing the certificates sent us, and which can be had on application at this OFFICE, or from any of our AGENTS. It will not only show the high opinion of the Chemical Constitution of our Guano, but will also show the high opinion of the Agricultural Community, by publishing those letters received unfavorable to our Guano, but careful inquiry in many cases proves that the use of our Guano was not only a failure in the case, but a loss to the farmer beyond our control. We have frequently heard the same complaints of the kindred Fertilizer, Peruvian Guano, but the concurrent testimony of well known Farmers and Planters from Maryland to the extreme Western counties of North Carolina, justify us in claiming a place for our Fertilizer superior to many, and as good as NONE.

We confidently expect the continued patronage of the Agricultural Community and no exertion will be spared on our part to make
